

## Dampening instructions for microfiber Sappax Surface Wipes

Size: 32 x 32 cm

| Amount of liquid / Surface Wipe |       |
|---------------------------------|-------|
| Moist                           | Damp  |
| 10 ml                           | 20 ml |

The microfiber Sappax Surface Wipe was developed for effective cleaning, to be used together with, for example, KW cleaning products.

Sappax Surface Wipe is a very high-quality woven microfiber wipe, which is suitable for even the most demanding targets.

### **Washing instructions:**

Machine wash max 90 ° C

Before use, it is advisable to wash the wipe with a short washing program, to eliminate static electricity

Do not use fabric softener or bleach

Use, for example, KW detergent for coloured laundry

Always wash the microfiber laundry separately

### **Service life:**

Lasts hundreds of washes

The number of washes depends on the use, the washing method and the chemicals used.
