Tube Towel purple	33 cm	0,2	0,35
”	45 cm	0,3	0,5
”	55 cm	0,4	0,65
”	85 cm	6	*
”	105 cm	0,75	*
”	125 cm	0,9	*
Tube Towel micro/polyester	33 cm	0,6	0,9
”	45 cm	0,8	1,3
”	55 cm	0,9	1,5
”	85 cm	1,4	2,5
”	105 cm	1,8	3
”	125 cm	2	4

### Instruction:

Make tube towels rather too dry than too wet. If necessary, use a spray bottle to add moisture to stains.

### Dampening:

Measure the amount of cleaning solution you need into the bucket, half on the bottom of the container and half on the tube towels. Fold the tube towels in the middle and place in the bucket the long side down. The moisture stabilizes in 15 minutes. Machine wash max. 95 ° C, remove loose debris before washing. Tumble drying allowed.

### Note!

Dampening amounts are indicative. Liquid volume measured after centrifugation.
